

PLEASE - do not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has given me back to my family. It has made a huge difference in the quality and amount of time I have to spend with my children. I used to receive up to 4 calls a night every night of the week. It is very peaceful now, and we can enjoy family activities without constant interruptions.

I pay for a phone line for my convenience, not for telemarketers to "advertise". Television and Radio stations charge for advertising time - If telemarketers want to call me, on a phone line I pay for, they can pay me the same rate TV and Radio stations charge for advertising time - how much does a 30 second spot go for during the Super Bowl? In other words - MY PHONE LINE IS FOR MY USE, NOT THEIRS!
